What is a small joy?

It's the spot where the morning light hits just right. It's the place where you pause to hear birdsong. The set where you always feel calm. The shortcut that makes your day easier. Somewhere you caught your breath and felt okay. A place you feel happy.

The little moments that find us in our day and make the world sweeter.

Step 1: Notice

Small joys are often hiding in plain sight. They tuck themselves into our days, our commutes, waiting to be noticed. Think of the small joys that make your day better.

Step 2: Collect

Mark on the map where you found a small joy. You can label it, describe it, sketch it, use color or not... whatever you want to do to show where that small joy was located.

Step 3: Tend

You don't have to earn small joys. They are not a reward. They are reminders:

You are here.

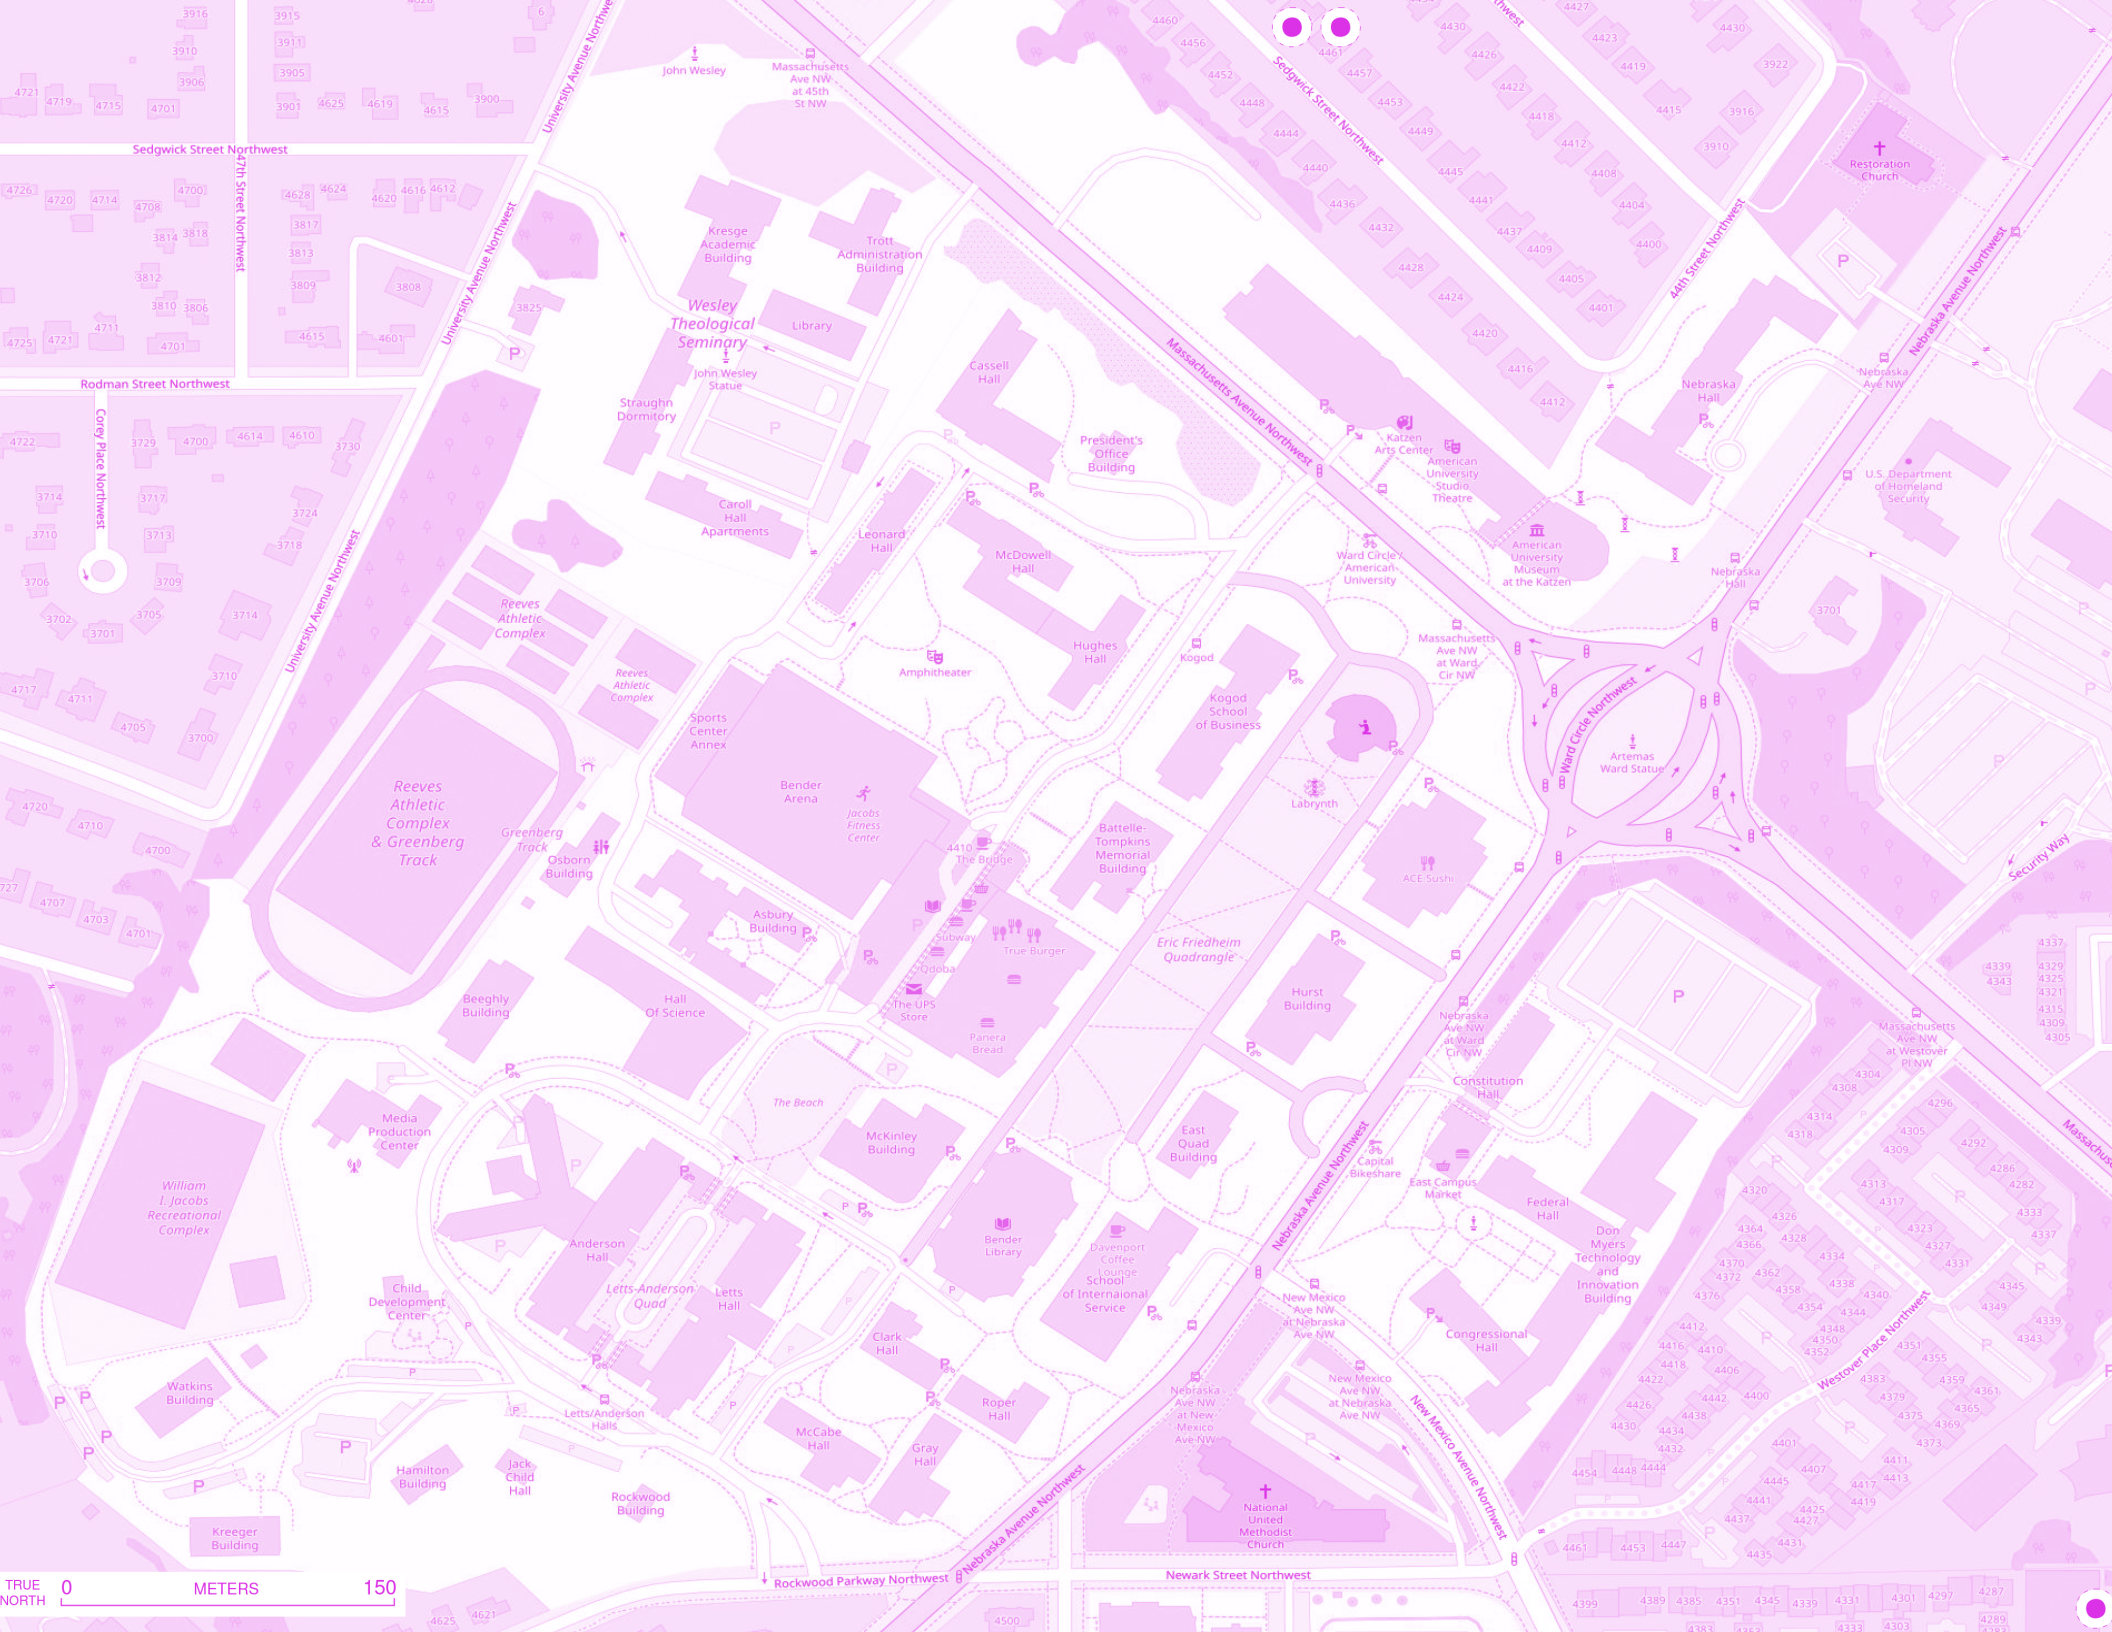

Make your map an atlas!

Take them with you and you'll never get lost.

A guide to mapping small joys
